

Isuru Akalanka

QA Engineer & Software Engineering Undergraduate

isuruakalanka28@gmail.com | +94 766 016 445 | Weliveriya, Gampaha, Sri Lanka | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Dedicated Software Engineering undergraduate at the University of Sri Jayewardenepura with a strong passion for Software Quality Assurance and software testing. Proficient in manual testing, automation testing fundamentals (Selenium), and QA methodologies including SDLC, STLC, test case design, and defect life cycle management. Skilled across HTML, CSS, JavaScript, TypeScript, Next.js, MySQL, Java, and Python, with hands-on experience building full-stack web applications and a growing knowledge of Odoo ERP. Seeking a QA Engineer or Software Testing role to contribute analytical thinking, attention to detail, and a commitment to delivering high-quality, reliable software systems.

TECHNICAL SKILLS

QA & Testing	Manual Testing, Performance Testing, System Testing, Test Case Design, Test Planning, Bug Tracking, Defect Life Cycle, SDLC, STLC
Automation & Tools	Selenium WebDriver (Fundamentals), JIRA (Bug Reporting & Tracking)
Programming	Java, Python, JavaScript, TypeScript, HTML, CSS, MySQL
Web Development	Next.js, Node.js, Tailwind CSS, REST APIs
ERP Systems	Odoo ERP (Learning) — business modules, system configuration, and workflow automation
Soft Skills	Requirements Analysis, Communication, Attention to Detail, Time Management, Team Collaboration, Creativity

EDUCATION

Bachelor of Science in Software Engineering <i>University of Sri Jayewardenepura, Sri Lanka</i>	2023 – Present
Advanced Level (A/L) – Science Stream <i>Christ King College, Weliveriya</i>	Completed 2021

ACADEMIC & PERSONAL PROJECTS

Car Sales & Inventory Management Platform <i>Personal Project Next.js, TypeScript, Tailwind CSS, Node.js, REST APIs, Database</i>	2026 – Present
- Developing a full-stack automotive platform that gives customers a smooth vehicle-buying experience and gives businesses tools to manage inventory. - Built a responsive vehicle marketplace with customer registration, secure login, advanced search and filtering, and detailed listings with specifications, pricing, and image galleries. - Designed an admin dashboard for adding, updating, and removing listings, and managing prices, availability, photos, and specifications. - Implemented customer inquiry management and role-based access control to separate customer and admin capabilities. - Developed REST APIs and a responsive UI that works across desktop, tablet, and mobile devices.	
Web Application Testing Project <i>University of Sri Jayewardenepura</i>	2024
- Designed and executed comprehensive test cases for a student management web application, identifying 15+ critical defects. - Applied STLC phases — planning, design, execution, and closure — to deliver structured QA documentation. - Conducted functional, regression, and system testing, improving application stability by validating all core modules. - Tracked and reported defects using JIRA, collaborating with the development team to ensure timely resolution.	
Performance Testing – E-Commerce Platform <i>Personal Project</i>	2024
- Executed load and stress testing scenarios to evaluate system behaviour under varying user traffic conditions. - Analyzed performance bottlenecks and documented findings with actionable recommendations for optimization. - Utilized browser-based tools and manual methods to measure page response times and resource utilization.	

CERTIFICATIONS & COURSES

- Certificate Course in Computer Applications — Realway Institute
- English Diploma — Britishway English Academy
- Software Engineering Fundamentals — University of Sri Jayewardenepura (Ongoing)
- Odoo ERP — Self-learning (Ongoing)

LANGUAGES

English (Very Good — Professional Working Proficiency) | Sinhala (Native)
